Metal roof and kitchen have since been updated. Great front entry with lots of built in cabinets and storage. Sunny south facing living and dining areas with lots of windows and original hardwood flooring. The kitchen was updated in 2012 and features stainless appliances. The basement features a bedroom (at drywall stage and insulated laminate flooring) and 4pc bath as well as a partially finished area (to drywall stage and sub-floor over concrete) with a certified wood pellet stove. Also of note, the back entrance/addition is new (to drywall stage) and boasts a picture window for bird watching. Outside you will find decks on 3 sides of your home with a covered hot tub area, 2 garden areas, a large fire pit area, walking trails with wild raspberries, strawberries and saskatoons, 2 sheds and a 30 x 40 archrib steel shop that has electrical installed.
